

EMAIL HOSTING

Full-service business email with advanced security.

Business email secured and managed by cyber security experts.

Exchange 2016 means more security and reliability for email. It is now easier than ever to provide users with the right email, to stay productive.

TOP FEATURES

- 2016 Outlook Mailbox
- Increased Email Capacity
- Data Center Redundancy
- Meets Compliance Req.
- OWA - Web Access

Our email hosting solution is proactively monitored to ensure the security of all company data against SPAM, malware, viruses, and more. Every organization managed by ExchangeDefender is equipped with their own client support portal in cases of immediate support, and have live access to top email security representatives via phone and chat.

Benefits of Email Hosting for Business

Designed for organizations that need a reliable, full-service email.

- **Smarter Inbox** - Exchange 2016 powers the latest Outlook experiences on phones, desktops, and the web so you can get more done.
- **Built-in Malware Protection** - Malware protection scans all the sent and received emails within your organization.
- **Improved Searching** - The new Compliance Search for e-Discovery, which allows you to search up to 10,000 mailboxes in a one search.
- **Mail Flow** - The default maximum size of a message in both the send and receive connector has been increased from 10 MB to 25 MB.
