

SMS PROXY

Secure text forwarding service with multi-channel delivery.

ExchangeDefender SMS Proxy is a virtual mobile number that forwards SMS text messages to mobile phones, emails, Slack, and Teams. The service is easy to setup, requires no install or downloads, and is compatible with most mobile phone providers.

Unlimited SMS

Enjoy unlimited SMS text forwarding to all numbers and emails within the same country.

SMS to Email

SMS Proxy can relay text messages to up to (5) other email addresses at once.

Slack & Teams Integration

SMS Proxy can send messages directly to your Microsoft Teams and Slack channels.

DESIGNED TO HELP YOU:

- Communicate faster with clients, and your team
- Simplify conversations with one virtual number for all
- Increase productivity with everyone updated at once.
- Send alerts during outages or other emergencies

TOP FEATURES:

- Easy to use
- Virtual mobile number
- Unlimited SMS messages
- Message routing
