

Our Competitive Advantage

We're Real People.

With the cloud, you're trusting people to take care of your data. We think it's important that you can see and work with us.

We do our own development in-house, and do IT right. Every business has unique requirements, and we have a team that can make you more efficient.

Our management are **available** and accessible. Your business is not just a quarterly sales goal, protecting your data is our **passion**; we are here for you no matter what.

Our Process

Would you **hire** someone who couldn't tell you **how** they'll do the job?

Fully Accredited

Our service is audited and available for review at any time. Our process and methodology is documented and accessible.

Flexible

We are flexible to make custom projects meet your business goals. IT should be able to adapt, and we have the people, and the resources to make it happen.

Super Fast

We're small but fast. All we do is email and with that focus comes the ability to quickly adapt to what your business requires.

New Hardware & Locations

We own **physical hardware** you can see and touch. Our data centers, network connections and physical locations are documented, audited, and flexible enough to meet your needs for growth and **security**.

We have **global reach**, management and compliance. We have **infrastructure** on five continents and local service experience for small business to Fortune 500.

Backup, compliance and **archiving** you can **trust & verify**. We don't do "proprietary" smoke and mirrors, we help you meet specific, documented and audited backup and retention requirements.
